

CONFIDENTIAL

LOGNOTE -- Chief, Operations Group, 27 March 1986

1. [] Shortly after 5 p.m. last evening, [] NIO
for Counterterrorism, called me to ask: []
[]
[] Since all MOD employees had
departed for the day, I checked with the Wire editors, who recalled
several such radios. I finally contacted [] at home, who
confirmed the radios mentioned by the Wire. Meanwhile, DC/Ops had
contacted [] in AG, who mentioned yet another radio. After
the Wire had confirmed that the field had not filed any such items
from these radios [], I composed an
alert message to London, Abidjan, and Nicosia, cleared the message
with [], and had the Wire send. Responses were to be called in
to the Terrorist Watch Officer in the Opscenter (secure []) who
will relay information to Allen (secure []). All bureaus had
responded by this morning and the Opscenter was informed.
